

[Statistics and Surveys](#) [1]

AskAway statistics and survey results are posted every month. Please see below for the types of statistics the Admin Centre gathers and shares.

Usage Statistics

[Monthly usage stats](#) [2] show many AskAway sessions are requested by patrons from your institution, how many sessions are handled by each institution, and how many are requested via Qwidget.

Form Fields

[Form field data](#) [3] gives detailed information about each question, including the patron's institution, wait times, session length, referring URLs, and any tags added by the service provider.

Survey Results

[Survey results](#) [4] report on responses from the AskAway patron survey that patrons are invited to complete at the end of each session.

Questions?

If you would like to generate additional statistics for your institution, please see information on [Collecting Statistics](#) [5] for local coordinators. If you have any questions, contact the Admin Centre and we'll be happy to help you.
